STANDARD PAIN MANAGEMENT TRAYS

Not Made With
Natural Rubber Latex

At Busse, we recognize that pain management is one of the fastest growing sectors of the medical field today. Hospitals, clinics and surgi-centers are increasingly choosing pain management techniques over more costly and more invasive procedures. Increasing awareness of the benefits of regional anesthesia vs. general anesthesia has created a demand for a variety of pain management products. To meet this demand, Busse offers a line of Pain Management Trays.

BENEFITS OF CHOOSING BUSSE:

- Premium products that fit your requirements
- Flexibility – standard and custom trays
- Personalized products and service
- Engineered sharps protection components available
- Quick turnaround time allows you to keep inventory low
- Prompt price quote and samples

CUSTOMIZED SOLUTIONS FOR PAIN MANAGEMENT

Add optional components to our standard trays or create a total custom solution. The following list provides a sample of components to build your custom tray. If you do not see the component that you require on this list, please call us.

THE BUSSE PAIN MANAGEMENT TRAY PROGRAM ENABLES YOU TO BUILD THE EXACT TRAY FOR YOUR CLINICAL NEEDS.

What if you need components not included in our standard trays?

- Simple... build your own custom tray.
- Using one of our standard trays as your foundation, you may add or remove any components to customize a tray to your facility's specifications.

EPIDURAL NEEDLES

Tuohy, Weiss (fixed wing, detachable wing)
Available in various lengths, *such as*

18g x 3-1/2"
20g x 3-1/2"
22g x 3-1/2"

SPINAL NEEDLES

(Assorted styles including Whitacre, Quincke)
Available in various lengths, *such as*

18g x 3-1/2" 22g x 5"
20g x 3-1/2" 22g x 7"
22g x 3-1/2"

NEEDLES

(Standard, Safety), *such as*

Needle	18g x 1-1/2"
Needle	20g x 1-1/2"
Needle	21g x 1-1/2"
Needle	22g x 1-1/2"
Needle	25g x 5/8"
Needle	25g x 1-1/2"
Needle	27g x 1-1/2"
Filter needle	19g x 1-1/2"

LOSS OF RESISTANCE (LOR) SYRINGES

(Luer lock, Luer slip), *such as*

Glass syringe (metal/glass tip)	5mL
Glass syringe (metal/glass tip)	10mL
EpiGlide® plastic syringe	10mL

CONTROL SYRINGES

such as

Control syringe	10mL
Control syringe	20mL

Natural Rubber Latex

STERILE TITAN™ SPINAL NEEDLES & EPIGLIDE® LOR SYRINGES

Titan™ Spinal Needles are designed with the quality and precision necessary for superlative performance. To ensure patient safety and comfort, the needles maintain stability with minimal deflection during insertion. Featuring translucent hubs for unobstructed viewing during injection. Trust Titan™ Spinal Needles to fully support your procedures and pre-ops with the quality they demand.

LOSS OF RESISTANCE (LOR) PLASTIC SYRINGES

Our *EpiGlide*® LOR syringes have been redesigned to provide smoother plunger movement to enhance user sensitivity and provide accurate detection of the epidural space.

STERILE LUMBAR PUNCTURE TRAYS

Not Made With
Natural Rubber Latex

All components required for measuring cerebrospinal fluid pressure and aspirating CSF from the subarachnoid space are neatly arranged in these conveniently packed, sterile trays. Trays offer a choice of 18, 20, or 22g for spinal needles for adult patients, and 21 and 22g for children and infants.

COMPONENT HIGHLIGHTS

Ultrasharp spinal needles for smooth insertion and greater patient comfort.

Precisely calibrated manometer with well-defined markings for visual acuity: Luer slip fitting assures quick and leak-free connections.

Prenumbered vials for accurate specimen identification.

Busse Safety-Deluxe Lumbar Puncture Trays have been designed to help you comply with today's safety requirements.

SAFETY COMPONENTS

PEDIATRIC/INFANT TRAYS

CATALOG NO. 645

Packed 10/carton

One multi-compartment tray with prep well
One 21g x 2-1/2" Titan™ spinal needle with stylet
One 3-way stopcock
One 6" extension tube
One 1-piece 350mm manometer
Four 10mL specimen vials, prenumbered, with caps
Four patient I.D. labels
One 2mL ampule 1% lidocaine hydrochloride, USP
One 3cc syringe with 25g x 5/8" needle
Three sponge sticks
Three gauze pads
One fenestrated drape with adhesive strip
One CSR wrap
One set of Universal Medication labels

CATALOG NO. 645B

Packed 10/carton

645B has the same components as 645 but without lidocaine.

CATALOG NO. 646

Packed 10/carton

Same components as Catalog No. 645, but with 22g x 1-1/2" spinal needle and without manometer tube, 3-way stopcock and extension set.

CATALOG NO. 646B

Packed 10/carton

646B has the same components as 646 but without lidocaine.

SAFETY PEDIATRIC/INFANT TRAY

CATALOG NO. 946

Packed 10/carton

One multi-compartment tray with prep well
One 22g x 1-1/2" Titan™ spinal needle
One Saf-T-Cube™
Four 10mL specimen vials, prenumbered, with caps
Four patient I.D. labels
One 2mL ampule 1% lidocaine hydrochloride, USP
One 3mL syringe with 25g x 5/8" safety needle
Three sponge sticks
Three gauze pads
One towel
One fenestrated drape with adhesive strip
One bandage
One CSR wrap
One set of 10 Universal Medication labels

STERILE LUMBAR PUNCTURE TRAYS

CATALOG NO. 648

Packed 10/carton

One multi-compartment tray with prep well
 One 2mL ampule 1% lidocaine hydrochloride, USP
 One 3mL syringe with 25g x 5/8" safety needle
 Three sponge sticks
 Three gauze pads
 One towel
 One fenestrated drape with adhesive strip
 One bandage
 One 20g x 3-1/2" Titan™ spinal needle with stylet
 One 3-way stopcock
 One 6" extension tube
 One 2-piece 550mm manometer
 One 22g x 1-1/2" infiltration needle
 Four 10mL specimen vials, prenumbered, with caps
 Four patient I.D. labels
 One CSR wrap
 One set of 10 Universal Medication labels

CATALOG NO. 648B

Packed 10/carton

Same components as 648 but without lidocaine.

CATALOG NO. 647

Packed 10/carton

Same components as Catalog No. 648, but with a 18g x 3-1/2" spinal needle.

CATALOG NO. 647B

Packed 10/carton

Same components as 647 but without lidocaine

CATALOG NO. 649

Packed 10/carton

Same components as Catalog No. 648, but with a 22g x 3-1/2" spinal needle.

CATALOG NO. 649B

Packed 10/carton

Same components as 649 but without lidocaine.

J-STYLE BONE MARROW BIOPSY/ASPIRATION NEEDLE

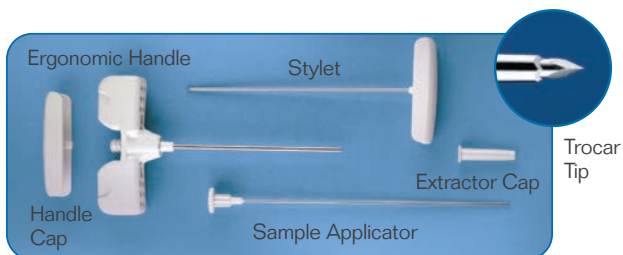

CATALOG NO. 630

Individually packed 10/carton

Ultra-sharp and manufactured to the highest tolerances, the Busse bone marrow biopsy needle is designed to provide outstanding and consistent performance.

With its substantial, easily gripped handle, our 11g x 4" J-style needle provides the physician with greater torque than similar instruments. Combined with the ultra-sharp trocar tip on the stylet, Busse's exclusive design offers much easier penetration of bone tissue. Once the stylet is withdrawn, the cannula tip presents four sharp, beveled planes with pointed serrations at their junctures, and produces tightly sheared marrow samples as the needle is advanced.

CATALOG NO. 986

Packed 10/carton

Same components as Catalog No. 985, but with only one Saf-T-Cube™ and without I-style aspiration needle.

CATALOG NO. 987

Packed 10/carton

Busse's individually wrapped, pre-cut gauze dressings complement every tracheostomy care set.

Highly absorbent quality gauze provides patient comfort and protection.

Sterile single dressing offers the ultimate in economy, yet assures maximum patient protection for each tracheostomy dressing replacement.

STERILE SUCTION PRODUCTS

Not Made With Natural Rubber Latex

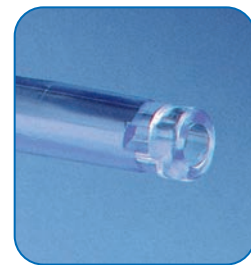

STERILE POOLE SUCTION TIPS

The Busse Poole is made of tough, shatter-resistant plastic that features a retractable screen. It is a versatile, three-position unit which features a one-hand thumb "click and slide" operation for the outer screen to extend or retract the pinpoint suction tip. With the screen in place, the Poole will help eliminate tissue grab and deep abdominal trauma. With the screen retracted, the Poole presents a fine suction tip. With the screen removed, the Poole can reach into confined areas.

Instrument, 50/carton

STERILE YANKAUER SUCTION TIPS

Open tip

Bulb tip

The Busse Yankauer is a rigid, curved, one-piece design, made from a blend of clear, blue-tinted, shatterproof plastic. Edges are smooth and clean, with no flash or parting lines. Clear tips permit visual monitoring of suction fluids. A ribbed, universal connector fits securely on all types of tubing. Busse Yankauers are available with or without a suction control vent, in two tip styles.

STERILE UTERINE ASPIRATION SYSTEM

Not Made With Natural Rubber Latex

STERILE VACUUM CURETTES

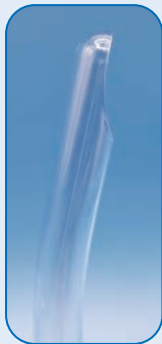

Visible, frosted sounding line to gauge insertion depth

Clear, see-through suction-control handle

Disposable vacuum curettes are made of clear rigid plastic, with molded markings for size and tip orientation, and a visible, frosted sounding line to gauge proper insertion depth. Our curettes are strong, firm, and finely finished; wall thickness is uniform throughout; and there are no sharp edges anywhere. Select from seven sizes for minimal uterine dilation of each patient.

Busse vacuum curettes are available with open end tips, in both curved or straight designs, that fit all popular styles of disposable or reusable handles.

POSI-GRIP™ UMBILICAL CORD CLAMP

This single-use clamp is designed to seal the umbilical cord, preventing loss of blood as the cord dries beneath it. It can be easily placed with one hand, even if gloved and slippery. The interlocking teeth hold the cord securely and keep it stationary. Once the protected closure is in place and closed, it cannot be opened accidentally. Included in each box of 64 is one cord clamp cutter. Our clamp works with any style cord cutter. Available sterile and non-sterile.

PVC-FREE ENVIRO-SAF POST MORTEM KITS

Our Enviro-Saf post mortem bags comply with EPA chlorine-free burn requirements. They also conform to OSHA standards.

CATALOG NO. 914

Packed 10 bags/carton,
each in individual poly bag

Same components as Catalog No. 901,
but with PVC-free components.

CATALOG NO. 915

Packed 10 bags/carton,
each in individual poly bag

Same components as Catalog No. 904,
but with PVC-free components.

POST MORTEM BAGS & KITS

CURVED ZIPPER STYLE

Not Made With
Natural Rubber Latex

The curved zipper style bag opens fully for ease of access, permitting autopsies to be performed within the bags. All four sides are heat sealed to prevent leakage. The bags are made of strong high-grade plastic with bound edges and heavy-duty, rust-proof nylon zippers. Our designs conform to OSHA's universal precautions regarding containment of body fluids and protection from bloodborne pathogens

Used to maintain identification and
chain of custody.

One red biohazard tag

Three yellow containment tags

Three identification tags

One self-adhesive document pouch
with biohazard symbol

BOWLS AND CONTAINERS

Not Made With
Natural Rubber Latex

SOLUTION/SPONGE BOWLS

Our multi-purpose sponge/solution/bowls are made from durable, heavyweight polypropylene and are extremely versatile. A broad lip at the top of each bowl offers an excellent surface on which to rest instruments, while molded ridges that circle the inside allow instrument tips to rest in solution without immersing the entire instrument. A broad base provides excellent stability.

Busse disposable sponge bowls are an excellent, economical alternative to stainless steel, eliminating all washing, sterilizing, storing, and inventory control problems.

Available in two sizes of opaque, blue propylene, 16 oz. and 35 oz.

CATALOG NO. 400 16 OZ.
Sterile, individually packed, 75/carton

CATALOG NO. 401 35 OZ.
Sterile, individually packed, 50/carton

CATALOG NO. 402 16 OZ.
Non-sterile, bulk packed, 500/carton

CATALOG NO. 403 35 OZ.
Non-sterile, bulk packed, 200/carton

Each sterile Busse bowl is packed in a see-through plastic bag and sealed with a peel-back strip that opens easily for a struggle-free, aseptic delivery.

8 OZ. SPECIMEN CONTAINERS

Lasts for the entire stay of the patient
Turquoise cup with clear seal-tite lid and
"Name" and "Room"

CSR WRAPS & ACCESSORIES

Not Made With Natural Rubber Latex

CSR WRAPS

A comprehensive, single-use wrapping system – unparalleled for quality, versatility, and cost-effectiveness. Busse CSR wrap offers superior barrier properties against both air and water-borne bacteria, combined with excellent water repellency and high wet or dry tensile strength.

STANDARD PACKS

An economical wrap ideally suited for general purpose use in hospitals, physician's offices, clinics, etc.
