

Amniotic Membrane Perforator

AmnioPerf™

The Busse AmnioPerf™ is designed to rupture the amniotic membrane without any injury to the fetus or mother. This device allows medical personnel to carefully snag the membrane, without scratching or causing any damage.

Safe

Sterile

Easy-To-Use

Contoured sides to provide a more secure grip for doctor or medical personnel

Straight handle for precise control and easy access to amniotic membrane

Non-glare plastic for better visibility by doctor

Disposable and cost effective

Sterile

Protected point for safer insertion without inadvertently piercing tissue; snagging motion instead of poking, prevents injury to baby

Rounded tip prevents injury to mother & fetus

Individually packaged in a rigid form for protection during transportation.

Catalog No. 387 - Packed 100/case
